

## Meeting Log:

Date: Jan 13<sup>th</sup>

- Who is doing what: Discussion by all members' discussion
- What are we doing:
  1. Direction of the project?  
Choose the project topic: An application based on web technology.
  2. What technology should we use?  
Web+MySQL+Web frame.
  3. To do: decide on a specific project.

Date: Jan 14<sup>th</sup>

- Who is doing what: Discussion by all members
- What are we doing:
  1. Project topic?  
Choose the project topic: Online Study System.
  2. Write the proposal.
  3. To do: Search some materials for determining specific web technology.

Date: Jan 15<sup>th</sup>

- Who is doing what: Discussion by all members
- What are we doing:
  1. Tech?  
Spring boot + MySQL
  2. To do: Set up the environment.

Date: Jan 16<sup>th</sup>

- Who is doing what:  
Keyi Fan is responsible for the code.  
Xiaoxia Sun is responsible for the test.  
Xinhui Ding is responsible for the requirement.  
Yuxuan Du is responsible for the database.
- What are we doing:
  1. Project topic change into:  
Personal Website
  2. To do:  
learn the knowledge of each responsible part.

Date: Jan 22<sup>th</sup>

- Who is doing what:
  - Keyi Fan is responsible for the code.
  - Xiaoxia Sun is responsible for the test.
  - Xinhui Ding is responsible for the requirement.
  - Yuxuan Du is responsible for the database.
- What are we doing:
  1. Standardize meeting mode:
    - Choose every Wednesday to have group meeting.
  2. Exchange learning progress.
  3. To do: learn the knowledge of each responsible part.

Date: Jan 29<sup>th</sup>

- Who is doing what:
  - Keyi Fan is responsible for the code.
  - Xiaoxia Sun is responsible for the test.
  - Xinhui Ding is responsible for the requirement.
  - Yuxuan Du is responsible for the database.
- What are we doing:
  - Exchange learning progress.
  - Agile development is underway as discussed at the meeting.
- When is what we are doing supposed to be finished:
  - Until next meeting.
- Why is what we are doing relevant to users:
  - “As a user,  
I want to have a register account part,  
So that I can ensure that I can use the website.”
  - “As a user,  
I want to have a register reminder,  
So that I can ensure that I don’t have to register again.”
  - “As a user,  
I want to have a register input reminder,  
So that I can ensure that the passwords I input are same.”
  - “As a user,  
I want to have a login part,

So that I can ensure that I can login the website.”

“As a user,  
I want to have a login reminder,  
So that I can ensure that I can know the username or password I input is wrong.”

“As a user,  
I want to have a switch part ,  
So that I can ensure that I can change the language I can understand.”

Date: Feb 5<sup>th</sup>

- Who is doing what:  
Keyi Fan is responsible for the code.  
Xiaoxia Sun is responsible for the test.  
Xinhui Ding is responsible for the requirement.  
Yuxuan Du is is responsible for the database.
- What are we doing:  
Exchange learning progress.  
Agile development is underway as discussed at the meeting.
- When is what we are doing supposed to be finished:  
Until next meeting.
- Why is what we are doing relevant to users:

“As a user,  
I want to have a home page,  
So that I can ensure that I can view the posts I posted.”

“As a user,  
I want to have an add part ,  
So that I can ensure that I can add photo and contents and post them.”

Date: Feb 12<sup>th</sup>

- Who is doing what:  
Keyi Fan is responsible for the code.  
Xiaoxia Sun is responsible for the test.  
Xinhui Ding is responsible for the requirement.  
Yuxuan Du is is responsible for the database.
- What are we doing:

| <p>Date: March 4<sup>th</sup></p> <ul style="list-style-type: none"> <li>• Who is doing what:</li> </ul>   |

Keyi Fan is responsible for the code.  
Xiaoxia Sun is responsible for the test.  
Xinhui Ding is responsible for the requirement.  
Yuxuan Du is responsible for the database.

- What are we doing:  
Exchange learning progress.  
Agile development is underway as discussed at the meeting.
- When is what we are doing supposed to be finished:  
Until next meeting.
- Why is what we are doing relevant to users:  
  
“As a user,  
I want to have a follow and unfollow topic part,  
So that I can ensure that I can follow and unfollow the topics I interested in  
or not.”  
  
“As a user,  
I want to have a choose topic part,  
So that I can ensure that I can add posts by the topic I followed.”

Date: March 10<sup>th</sup>

- Who is doing what: Discussion by all members
- What are we doing:
  1. Summarize the current progress of the project, including requirements, code, and tests.
  2. Prepare to presentation.

Date: March 10<sup>th</sup>

- Who is doing what: Discussion by all members
- What are we doing:  
Summarize the Suggestions given by the professor:
  1. Github branch:  
Suggestion: should not upload files directly to the master.  
Solution: build a new repository and replan the project structure.
  2. Test:  
Suggestion: need more automated tests.  
Solution: test by using the unittest that Springboot carries with it + the selenium automated testing technology.

Date: March 25<sup>th</sup>

- Who is doing what:

Keyi Fan is responsible for the code.

Xiaoxia Sun is responsible for the test.

Xinhui Ding is responsible for the requirement.

Yuxuan Du is responsible for the database.

- What are we doing:

Exchange learning progress.

Agile development is underway as discussed at the meeting.

- When is what we are doing supposed to be finished:

Until next meeting.

- Why is what we are doing relevant to users:

“As a user,

I want to have a people page,

So that I can ensure that I can view all the users.”

“As a user,

I want to have a follow and unfollow people part,

So that I can ensure that I can follow or unfollow the people I interested in or not.”

“As a user,

I want to have a follower page,

So that I can ensure that I can view the posts of the people followed.”

“As a user,

I want to have a search part,

So that I can ensure that I can view the posts by searching the username.”

Date: Apr 1<sup>st</sup>

- Who is doing what:

Keyi Fan is responsible for the code.

Xiaoxia Sun is responsible for the test.

Xinhui Ding is responsible for the requirement.

Yuxuan Du is responsible for the database.

- What are we doing:

Exchange learning progress.

Agile development is underway as discussed at the meeting.

- When is what we are doing supposed to be finished:

Until next meeting.

- Why is what we are doing relevant to users:

“As a user,  
I want to have a like and unlike part,  
So that I can ensure that I can like and unlike the posts that I think are good.”

“As a user,  
I want to have a view liked page,  
So that I can ensure that I can view the posts I liked before.”

Date: Apr 4<sup>th</sup>

- Who is doing what: Discussion by all members
- What are we doing: discuss the content to be reported with zoom.

Date: Apr 6<sup>th</sup>

- Who is doing what: Discussion by all members
- What are we doing: discuss the content to be reported with zoom.
